PROBABLE BETTS CANDIDACY

State Corporation Commissioner Amos A. Betts in a statement in today's Herald discusses the report that he will be a candidate for the democratic nomination for governor next year.

Although prominently mentioned as a probable candidate, Mr. Betts has not made up his mind definitely yet whether he will, or will not, be a candidate.

In the opinion of The Herald, should Mr. Betts decide to run, he would make a good showing. He is undoubtedly one of the strongest men yet mentioned for the democratic nomination, and would have a splendid chance of winning the nomination.

One reason that he should be able to get votes, is due to the fact that he has not been classed as a Hunt democrat, or an Anti-Hunt, or a corporation, or an anti corporation man. He has been holding strictly to party lines, being neutral in primary campaigns, and supporting the party nominees following the primaries.

The Herald is on the opposite side of the political fence from Mr. Betts but we can readily see that he would make a strong candidate for governor, and one whom the republicans would have a harder time defeating, than others of the flock mentioned in the democratic ranks.—Nogales Herald.

CORPORATION COMMISSION

The Arizona Corporation Commission held a session in Nogales last Thursday, during which the members heard the charges and counter charges made by the Arizona Gas & Electric Company, and the Nogales Electric Company.

It was alleged in the complaint of the Arizona Gas & Electric Company, that the Nogales Electric Company had charged a lower rate for furnishing light to the county than its published tariff rates, and the Nogales Electric Company alleged in a complaint that the Arizona Gas & Electric Company had charged the city of Nogales a higher rate than charged for furnishing power to the U. S. Government at Camp Stephen D. Little.

The commission after hearing the charges, took the matter under advisement.

The Arizona Gas & Electric Company was represented by Attorneys Duffy & Purdum, and Attorney A. A. Trippel appeared for the Nogales Electric Company.

AUTO TRAINS ON WAY WEST

Ordering automobiles in trainload lots seems to be the favorite pastime of Pacific Coast automobile distributors just now, according to a report from the Southern Pacific Company's freight department to the effect that five trainloads of cars are on their way from Eastern manufacturing points to California over the company's lines.

Four trainloads of Dodge cars, each train being composed of 40 carloads, have left Detroit for California, two trains coming over the Southern Pacific's Ogden route and two over the company's Southern route by way of El Paso. The first two trains are coming to Oakland and the other two to Los Angeles.

A solid train of 85 carloads of Overlands is on its way from Toledo to California, this shipment being routed over the Southern Pacific via El Paso. This is an unusual number of cars in one shipment and it was suggested when the train left Toledo that it would be a good idea to supply an extra Overland car for the train crew, in which to travel from the caboose to the "head end" of the train.

The carload distribution of the Overland shipment is as follows: 72 carloads to Los Angeles; 11 to San Francisco; one to Phoenix; and one to Santa Barbara.

SHIPPED CATTLE BACK

William Lutley, well known Tombstone cattleman, returned to Tombstone yesterday following a two months' trip to various states on matters connected with cattle on pasture in Texas. While he disposed of a number of head in South Dakota, Mr. Lutley shipped back over 300 head to his ranch in the Swiss-helms, which he has had on pasture in Texas during the drought. He reports that Fred Bennett, another Tombstone cattleman, who has cattle on pasture on the Pecos, is moving them about 50 miles further inland and will return to Tombstone next week.—Prospector.
